In Ancient China, in September, they would celebrate the birthday of the Moon. She shines on all our lives with all the best energies of the Moon. She helps when verbal communication has led to misunderstanding and inspires pure, devoted relationships. Ch'ango also shares energy for growth and manifestation in nearly any area of our lives. Let's manifest the new and wonderful with Her help.

The third Sunday of every month the Takoma Metaphysical Chapel invites you to join us in honoring the Goddess in traditional and innovative rituals of worship. Everyone is welcome. Love donations will be cheerfully accepted.

IT IS SERIOUSLY FUN!
